

### Lighthouse Park Residence

This is a spectacular site settled next to Lighthouse Park and includes old growth Douglas Firs. The home was designed to fit into the contours of the site with a long winding driveway that leads you through the Porte Cochere and then the front entry. The richness of the home reflects both the skill of the architect and the vision of the client. With a palette of materials sourced in France including the traditional lime based stucco and an unending attention to detail this home has an incredible sense of place and well being.

Location: Lighthouse Park, West Vancouver, B.C.
