

### Beaux Art Residence

This craftsman inspired residence is located a short drive from downtown Seattle. Set in an area of cottage style homes with very mature gardens the challenge was to fit in with an upscale feel. Exterior material choices included shingles and stone punctuated by generous amounts of trellis and wood detailing. Inside natural concrete, slate and the use of antiqued doors provided an ambience and focus for the home. The neighborhood greeted this new addition with great enthusiasm.

**Location:** Beaux Art Village, Bellevue, Washington, USA
